

THE KENSINGTON

Garfield Park at Twin Hills

THE KENSINGTON This impressive, white-columned brick front home has all the comforts of an oversized apartment plus all the prestige and privacy of a home of your own. Everything's on one floor—that means no stairs to climb! And for extra privacy the sleeping wing, with three attractive bedrooms and two complete baths, is apart from the rest of the house.

The big kitchen, with its own comfortable breakfast alcove, is fully equipped with lovely traditional wood cabinets and plenty of counter space. The automatic wall oven, countertop range, and two-door refrigerator-freezer are all by General Electric. In addition you'll find such luxury details as stainless steel sink under the big double windows, and a stainless steel range hood to waft away cooking odors! And in the adjacent laundry, there's a G. E. automatic washer and matching dryer!

The wide living room flows into the adjoining dining room where sliding glass doors open to a pleasant back lawn. In the sleeping wing the master suite has its own private bath with oversized stall shower, and an entire wall of closets. There's a second complete bath in the hall. Both baths have gleaming ceramic tile floors and bath areas and wall-wide illuminated mirrors. Plenty of closets, storage space in the laundry, and extra storage space over the garage, accessible with pull-down stairs.

The Kensington is pre-wired for television antenna outlets. Grounds are completely landscaped with a variety of trees and shrubs. All this—and more!—is included! It's the perfect home for older folks and for young couples just starting out.
